From the Desk of the Editor:

Cancer is the commonest cause of mortality and morbidity, world over and the incidence is rapidly rising in India. Cancer is a multifactorial disease and in a vast, variegated country like India with multicultural, multi-ethnic and geographical differences the types of cancer vary in the different states and regions.

Radiology is moving from mere diagnostics & morphological analysis to Theranostics or personalized medicine using bio-markers invitro (fluids), exvivo(biopsy) & invivo (bio imaging), with image guidance for therapeutic interventions, by radio-therapy & image controlled drug delivery. These techniques are elegantly elaborated in functional imaging by MRI and Pet Ct & Pet Mri with, metabolic and functional studies. While the availability of high end machines has improved over time, application of good techniques of imaging & interpretation remains a problem. As radiologists we form a vital arm of the MDT as treatment starts & ends with us, in diagnosing, staging & response assessment. We also have a very important role in early detection by screening.

The Society of cancer imaging, India (SOII) has been established with the primary objective of dissemination of knowledge in cancer imaging, clinical, educational, and research information. I am happy to bring out the 1st edition of our newsletter which will showcase the activities of our association. It will serve as a communication platform to share our experiences, have case based learning, discuss latest protocols & techniques and keep up with the exponentially growing trends. It will be a quarterly issue with contributions from Zonal Joint editors.

The newsletter is in an open platform & I am sure each one of you will share the wealth of your experience & knowledge. As doctors who deal a lot with terminally ill cancer patients, we must understand our patients beyond their illnesses and there is a section for your patient's experiences or blogs or art work which can be cathartic for them & us. Learning can be fun and I encourage you to contribute to cartoons, crosswords, art-work & photos as well.

SOII CME NEIGRIHMS

CME on onc imaging update - 25 th May 2019	
Program schedule	
VENUE: LI	
8:00 am to 9 am Registration and breakfast	
Session 1 - 9 am to 11 am: Updates	
Chairpersons: Dr Brian N Shetty / Dr Vikas Jagtap	
09:00 - 09:30	Head & neck malignancy Dr. S.S. Shivalingappa
09:30 - 10:00	Carcinoma Esophagus Dr. Binay Choudhary
10:00 - 10:30	Carcinoma lung Dr. Ankar Janakraj Shah
10:30 - 11:00	Neuroendocrine tumors Dr. S.S. Shivalingappa
11:00 - 11:30 Inauguration & Tea break	
Session 2 - 11:30 am to 1:30 pm: Structured Reporting	
Chairpersons: Dr. Culeb Harris / Dr. Donbopkar Khogekar	
11:30 - 12:00	Carcinoma Rectum Dr. Ankar Janakraj Shah
12:00 - 12:30	HCC and LIRADS Dr. S.S. Shivalingappa
12:30 - 01:00	PIRADS Dr. Bapirra Wankar
01:00 - 01:30	TIRADS Dr. Donbopkar Lyseer
01:30 Lunch	
Session 3 - 2 pm to 4 pm	
Chairpersons: Dr C Daniella / Dr Dathidiam Tonggar	
02:00 - 02:30	MIRADS Dr. Bagyan Raghavan
02:30 - 03:00	Breast Intervention Dr. Bagyan Raghavan
03:00 - 03:30	Overview in Oncointervention Dr. Akash Handique
03:30 - 04:00	Response assessment Dr. Bagyan Raghavan
04:00 Tea break	
Session 4 - 4:15pm to 5 pm: Panel discussion	
Moderator Dr. Culeb Harris	
Panelist Dr B Raghavan, Dr L Purnima Devi, Dr Umesh Das,

PATIENTS SPEAK

Humbling conversations ...

18 OCTOBER 2018

how r u happy dassera

Hello Ma'am, nice to hear from you. I had send you msg as soon as my operation was over. I am fine and managing well. Got Prosthetic leg from OTTO BOCK, Germany and now I can walk with stick and practising more. So far all checkups and reports are fine till date. It is all because of good wishes if friends like you.

No tough decision for me it is ok and I have no regrets. I have so far lived king size life and will live balance of it also same way. Got fit out but I have many hobbies and one of them is oil painting and colored pencil sketching, which I started after gap of few yrs and made one at pallala after biopsy, sending you photo clicked of sketching. With Regards

See you at [redacted]

U had chondrosarcoma no and how r u managing with ur prosthetic leg. I am delighted but I am angry that u didn't give ur painting.

Oh my god! Any time and any number of paintings for you. I am requesting you to visit us and take any number. Managing Prosthetic leg is not difficult it is ok and I do wear it for social gatherings, otherwise little cumbersome with regards.

U must do a surbird for me. Ur tumor was chondrosarcoma no??

Wahe guru. It is the faith in Him and in yourself.

Yes ma'am Chondrosarcoma grade 2, so far rest of the body is safe as per last year and this year Pet scan and C T scan. Rest let God take care I am not worried at all.

I will paint / make surbird for you.

Made in three days, your comments.
